

## COMMUNITY PHYSICIAN'S NETWORK®

Community Physicians' Network (CPN) is a Practice Based Research Network (PBRN) recognized by the Health and Human Services Agency for Healthcare Research and Quality (AHRQ). CPN practices partner with Morehouse School of Medicine to deliver excellence in patient centered healthcare. Membership is open to physicians of all specialties. CPN's goal is to eliminate healthcare disparities through excellence in quality healthcare, clinical research and continuing medical education.

What we offer:

- Electronic data standards for quality reporting to reach and sustain meaningful use
- Real time disease specific registries to support quality reporting and clinical trials
- Access to innovative patient centered technologies for health, wellness and chronic disease management, e.g. eHealthystrides
- Educational workshops, expert roundtables and continuing medical education (CME)
- Facilitate Adoption and Implementation of Meaningful use EMR in collaboration with GA Regional Extension Center
- Clinical trials training and certification of physicians and clinical staff
- Comparative effectiveness research workshops sponsored by Morehouse School of Medicine and the Atlanta Clinical Translational Science Institute (ACTSI)
- Adjunct faculty appointment with Morehouse School of Medicine

Quality improvement and clinical research areas: Diabetes; Hypertension; Personalized Health for Women a prevention and intervention program; Obesity; Cardiovascular disease; Cancer; Stroke; Sleep disorders; HIV/AIDS; Asthma;Arthritis and COPD
